MESSAGE FROM CHAIRMAN & MD

The world today faces a severe challenge which must be met cohesively to overcome the crisis looming over the next 30 years. A host of reasons from aging population to low birth rates, economic to cultural the effect of deficit is far more than trivial.

This calls for a pressing need for skilled hands driven by rapid economic growth and labour shortages across various sectors in multiple geographical locations globally.

Expatriates often fill lower-skilled roles due to demographic imbalances, while specialized expertise in industries like technology and healthcare requires recruitment from abroad. Seasonal fluctuations further demand temporary foreign workers, especially in sectors like agriculture and tourism.

India, with its vast talent pool, stands out as a key provider of both skilled and unskilled labour, addressing these gaps effectively. Orion, specializing in Indian blue-collar workers, offers cost-effective solutions, training, and cultural integration, benefiting global corporations and countries in multiple ways. Indian workers bring efficiency, education, adaptability, and language skills, however to cater to the demand Orion is committed to create a global supply chain which would enhance productivity and fostering a harmonious work environment, ultimately contributing to global development and success.
